DETAILED ACTION

1. This **Non-Final** action is responsive to the Pre-Appeal request filed on 3/29/2010 (note: prosecution has been reopened).
2. The Examiner contacted Applicants Representative Stoycho D. Draganoff on 8/13/2010 for a proposed examiners amendment to clarify the specification, however at the time applicant could not be reached.
3. In the application claims 1, 4-12, 33-35 and 41-55 are pending. Claims 1 and 42 are the independent claims.

Withdrawn Rejections

4. The 35 U.S.C. 102(e) rejections of claims 1, 4-12, 33-35 and 41-55 with cited references of Manning (U.S. 6,959,416) has been withdrawn in light of the persuasive arguments.

Allowable Subject Matter

5. Claims 1, 4-12, 33-35 and 41 are allowed.

Specification

6. The specification is objected to because paragraph 59 discloses that the “computer readable medium” includes transmission media in the form of acoustic or light waves. Paragraph 60 discloses carrier waves and paragraph 61 includes infra-red signals. This subject matter should be removed from the specification because it does not limit the “computer-readable medium” to statutory subject matter.

Claim Rejections - 35 USC § 101

7. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

8. Claims 42-55 are rejected under 35 U.S.C. 101 for being non-statutory, the claims describe a "computer-readable medium", however according to the specification paragraphs 59-61, the medium includes transmission media, carrier waves and infra-red signals. The medium is not limited to tangible embodiments and is therefore non-statutory.

Response to Arguments

8. Applicant's arguments filed 3/29/2010 have been fully considered but are moot in view of the new grounds of rejection.
